

PRODUCTIVITY FOCUS

Feature Tour

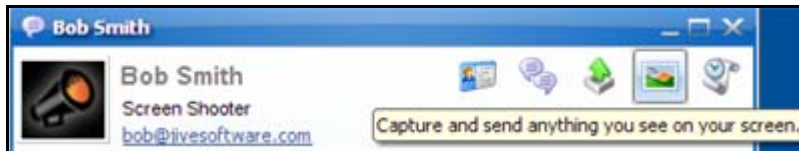

Tabbed Interface

Manage all your active chat sessions using an intuitive tabbed interface, whether you like the tabs at the top or on the bottom.

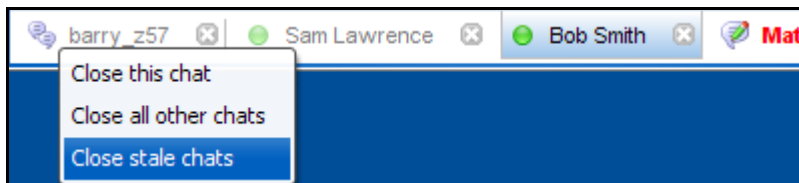

Send Quick Screenshots

If a picture is worth a thousand words, send an instant screenshot of an area on your desktop to speed the conversation along.

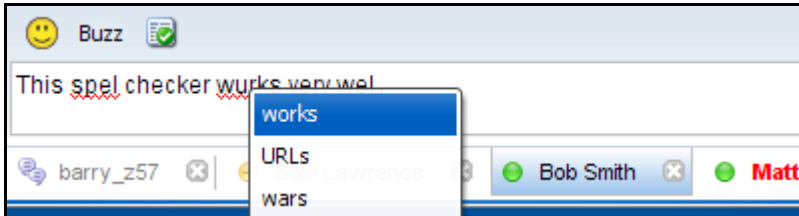

Stale Chat Detection

Recognize and clean up inactive chat sessions (stale chats) quickly.

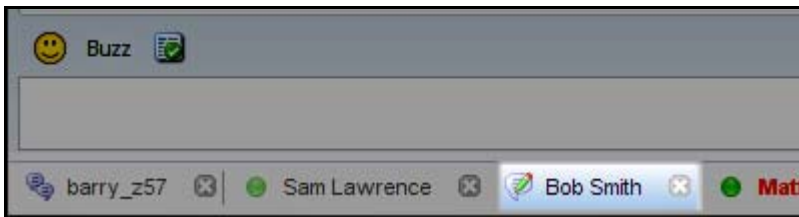

Inline Spell Check

Spell check as you type just like word processor applications.

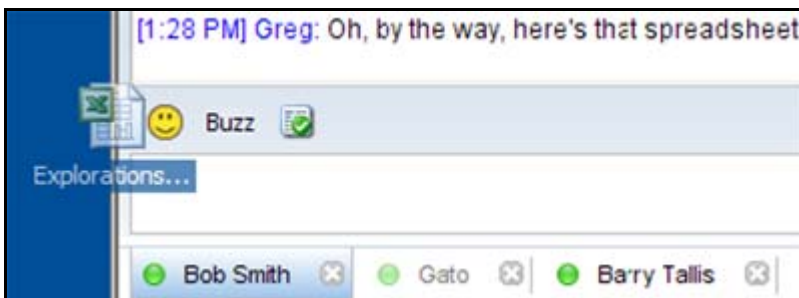

Typing Notifications

See when others are typing a response in both the chat window and contact roster.

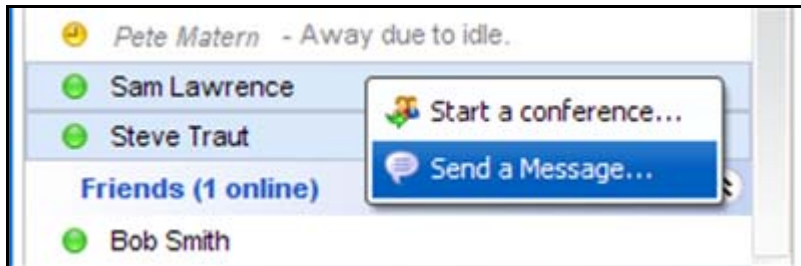

Drag & Drop File Transfers

Drag & Drop files into the chat window to initiate a file transfer.

Easy Broadcasting

Send your message to multiple people in your roster at the same time.

Chat History

Stay in context with your most recent chat history for each contact. The complete history is available with the click of a button.
